Title: USA PRODUCT OFFERING BOOK

In order to support the “Buy American” provisions of American Recovery and Reinvestment Act (ARRA) of 2009, Topaz is offering a wide selection of products that have been certified ARRA compliant. Product compliance will vary depending on the contract, source of funding or grant. Products made in Mexico or Canada may not comply with ARRA Buy American requirements for state and local ARRA funded projects. Requirements vary by state and agency so you’ll need to check all contract documents to confirm whether or not products approved for NAFTA (North American Free Trade Agreement”) can be used for the specific project. All purchase orders to Topaz must be marked “Made in USA” or must comply with “ARRA Buy American Act of 2009,”
