About Topaz

Our Business
A family-owned, U.S.-based company, Topaz manufactures lamps, fixtures and electrical supplies for commercial and residential, indoor and outdoor applications. From stadium to specialty lighting, we deliver a world-class selection of the most energy efficient products on the market today.

What Have We Learned?
With over 30 years of experience in the lighting industry, Topaz knows a thing or two about what issues are important to our customers. We believe in offering an inventory of quality, energy efficient products with versatile applications at fair prices. We work hard to offer the most professional and friendliest customer service to all of our valued clients.

Staying Current in Today's Always-Evolving Marketplace
As the shape of the lighting industry continues to evolve, Topaz is firmly committed to staying ahead of the technological power curve. We are proud to showcase our updated and comprehensive line of fixtures and lighting products. Have questions? Our friendly and knowledgeable sales team will be happy to help you. Ready to place an order? Contact your Topaz representative today to see how Topaz products can work for you.

At Topaz you get a personal assistant assigned to your account—a single point of contact to rely on to get 100% of your needs met... fast. In addition to our award winning service, we are committed to providing you with:

Value Pricing – As a manufacturer, we believe in providing you with quality products, value priced, so that both you and your customers can benefit and grow your businesses.

Direct Shipments – There are times when your customer may need a product in a hurry. At your request, we will ship directly to your customers from our warehouse.

Value-added services ensures you can serve your customers better. We are well known for the depth and breadth of our inventory. FullFill™ reflects our promise that we can fill over 99% of the orders we receive from existing inventory. Just give us your order by 4PM and in most cases, we will get your order out before 5PM on the same day.

To see our complete product line visit us at www.topaz-usa.com.

LED Indoor Lighting

Topaz’s indoor LED fixtures are the perfect long life alternative to traditional lighting technologies. By reducing energy and maintenance costs, they offer a lower cost of ownership. Commercial options include flat panels, architectural style troffers and stylish linear luminaires. Residential products include a line of LED retrofits for recessed applications, flush mount ceiling fixtures and disk lights—all featured in attractive designs and finishes. Topaz’s LED commercial and residential fixtures are available with either DLC® or ENERGY STAR® qualification.
LED Flat Panels

With edge-to-edge, evenly diffused, glare-free light, Topaz’s LED Flat Panels provide a contemporary solution to replace inefficient fluorescent fixtures. Available in 3500K (neutral white), 4000K (cool white) and 5000K (daylight) correlated color temperatures, our LED Flat Panels cast the right light in any commercial setting. Designed for drop-in ceilings or surface mount installations, the slim profile fixtures are available in 1’ x 4’, 2’ x 2’ or 2’ x 4’ sizes and can save up to 50% of energy usage compared to traditional fluorescent fixtures. Standard 0-10V dimming capability allows greater energy-savings and optional emergency backup available for 90 minutes of uninterrupted service during a power loss.

LED High Efficiency Flat Panels

A contemporary solution with edge-to-edge, evenly diffused, glare-Free light. Available in 3500K (neutral white), 4000K (cool white) and 5000K (daylight) correlated color temperatures, our High Efficiency LED Flat Panels cast the right light in any commercial setting. Designed for drop-in ceilings, pendant mount or surface mount installations, the slim profile fixtures are available in 1’ x 4’, 2’ x 2’ or 2’ x 4’ sizes and can save up to 50% of energy usage compared to traditional fluorescent fixtures. Standard 0-10V dimming capability allows greater energy-savings and optional emergency backup available for 90 minutes of uninterrupted service during a power loss.
### Specs
- Universal input voltage: 120-277VAC +/-10%, 60Hz
- Power factor: >0.95, THD <15%
- Average rated life: 50,000 (L70)
- Dimming: 100% to 10%
- Beam angle: 150°
- CCT uniformity: SDCM <4
- CRI: >80
- Ambient operating temp: -10°F to 110°F

### Features
- Edge lit design with superior light uniformity and color consistency
- Standard 0-10V dimming*
- White frame, fits standard T-bar drop ceilings
- Mitsubishi PMMA light guide eliminates premature yellowing
- IC rated for direct contact with insulation
- Damp location rated
- Includes 2 power quick connects
- 5 year warranty

### Applications
- Ideal for use in schools, commercial office building, and hospitals
- Surface mount with optional frame kits

LED Volumetric Troffers
Center Basket

Topaz’s volumetric ARC style LED troffers are a high performance, optically efficient replacement to traditional fluorescent. The aesthetically appealing curved lens fills the room with unobstructed light. Engineered to perform, the glare-free lens delivers up to 130 LPW. These fixtures are ideal for new construction or remodeling of commercial facilities. DLC 4.2 Premium Qualified and with standard 0-10V dimming, these troffers are perfect for offices, hospitals, schools and commercial applications.
Specs
- Universal input voltage: 120-277VAC +/- 10%, 60 Hz
- PF>0.9, THD <20%
- Average rated life: 50,000 (L70)
- Dimming: 100% to 10%
- Beam angle: 110°
- Color temperature: CCT uniformity SDCM < 4
- CRI: >80
- Ambient operating temp: -10°F to 110°F

Features
- Heavy duty steel construction with gloss white enamel finish
- Center LED illumination with arc shape volumetric features for exceptional light distribution
- Polycarbonate lens
- DLC 4.2 Premium Qualified providing up to 130 LPW
- Compatible with 0-10V dimmers or control systems*
- New construction or retrofit for T-Grid installations
- Optional emergency backup available provides 90 minutes of temporary lighting
- Ideal for use in offices, schools, hospitals and other commercial applications

Applications
- Ideal for use in schools, hospitals and offices

*Dimming with standard 0-10V dimmer, such as Leviton IP710, DS710 or Lutron DVSTV
Topaz’s Tri-Proof Vapor Tight Luminaire is the perfect solution for wide range of applications including garage, warehouse, stairwells, marine and subways. Provides an IP65 rated vaporproof, weatherproof and corrosion proof luminaire. Superior quality compared to other products on the market, and DLC premium qualified at 130 lumens per watt. Can be surface or suspension mounted with optional 0-10V dimming capability.
Specs
- Voltage: 120V-277VAC, 50/60Hz
- Dimmable: 0-10V*
- Average rated life: 50,000 (L70)
- THD: <20%, Power Factor: > 9
- 50W replaces 3x32W T8
- High efficacy 130 Lumens per watt (LPW)
- Beam angle: 120°
- CRI: 80
- Ambient operating temp: -40°F to 105°F
- Weight: 4.6 lbs. standard, 7.3 lbs. with battery backup

Features
- Vaporproof, weatherproof and corrosion proof
- Aluminum housing for thermal management and polycarbonate lens
- DLC premium qualified for low bay applications
- Battery backup version available
- 6 foot power cord included

Applications
- Includes stainless steel surface mount brackets. Suspension mount cables sold separately
- Commercial, industrial or marine type applications such as parking garages, stairwells, docks, and subway stations.

LED Linear Strip

Topaz’s Linear LED Strip Luminaires are the best energy efficient alternative solution for linear fluorescent fixtures. Standard size of 4 feet and designed to open up the room and distribute light spaciously along both the vertical and horizontal work space. Provides suitable light without any of the maintenance issues associated with fluorescent tubes and ballasts. The Superior LED technology delivers consistent color and CRI for uniform and comfortable lighting. Installation is quick and simple when mounting onto the surface of the ceiling. Constructed with a durable steel housing body and LED lifetime rating of at least 50,000 hours.
Specs
- Universal input voltage: 120-277VAC, 60 Hz
- Power factor: >0.9; THD <20%
- Average rated life: 50,000 (L70)
- Up to 131 Lumens per watt (LPW)
- Beam angle: 120°
- CRI: >80
- Ambient operating temp: -10°F to 110°F

Features
- 40W replaces 2x32W T8, 64W replaces 2x59W T8
- Polycarbonate lens
- Steel housing with UV resistant powder coat finish
- 0-10V dimmable*

Applications
- Ideal for retail, supermarket, industrial/warehouses, government, hospitals, school/institutions

LED Compact High Bay

Our compact linear LED high bays are a high performance, cost-effective solution for lighting warehouses, distribution centers and manufacturing facilities. Available with standard 0-10V dimming capability these DLC premium qualified fixtures deliver on performance and are suitable for mounting heights of up to 25 feet. Featuring compact 2 ft length, universal input voltage, prismatic lens, 50K hour life, and a 10 year warranty.

#### Optional Accessories

- **Surge Protector**
  - Catalog Number: WD-SP
  - Order Code: 79200

- **Occupancy Sensor**
  - Catalog Number: WD-OS
  - Order Code: 72700

- **Pendant Mount Kit**
  - Catalog Number: F-LHB-PNDT MOUNT
  - Order Code: 77916

- **Wire Guard**
  - Catalog Number: F-LHB80-Guard (For 80W Fixture)
  - Catalog Number: F-LHB110-Guard (For 110W Fixture)
  - Catalog Number: F-LHB165-Guard (For 165W Fixture)
  - Catalog Number: F-LHB225-Guard (For 225W Fixture)

#### Specs
- Universal input voltage: 120-277VAC +/-10%, 60Hz
- Power factor: >0.95, THD <15%
- Average rated life: 50,000 (L70)
- Dimming: 100% to 10%*
- Beam angle: 120°
- CRI: >80
- Ambient operating temp: -10°F to 110°F
- Sink Current: 2mA Max

#### Features
- Replacement for fluorescent or HID warehouse lighting
- Steel housing with UV resistant powder coat finish
- Equipped with heat resistant frosted acrylic lens
- Mounting includes V hook and chain
- Optional accessories are available

#### Applications
- Ideal for retail, supermarket, industrial/warehouses, government, hospitals, school/institutions

LED High Bay
Splashdown Series

Topaz’s LED High Bay Splashdown Series is ideal for food processing facilities, agricultural and high ambient temperatures. Constructed of cast aluminum with smooth body construction and a non-glass lens meeting the requirements of food processing and industrial machinery applications. Guaranteed to avoid dropping glass fragments or screws into food or machinery. A smooth body with seamless design reduces dust and water accumulation.
Specs
- Volts: 120–277VAC, 50/60HZ
- Average rated life: 50,000 (L70)
- CCT: 5000K
- Beam angle: 120°
- CRI: >80
- 15.35” Diameter / 5.24” Depth
- Weight: 12.3 lbs
- Ambient operating temp: -40°F to 140°F

Features
- IP69K rated for maximum resistance of dust and high temperature (steam) and high-pressure water
- IK08 rated to withstand up to 5 joules impact
- NSF certified for food processing requirements and hose down requirements
- Suitable for operation at elevated temperatures up to 60°C (140°F)
- Ring hook with 6 foot power cord for easy installation

Topaz’s High Bay Satellite Series luminaires are compact, lightweight for easy install, and suitable for up to 30 foot mounting heights, with available models delivering 19K to 31K lumens. The luminaire offers a 50K hour life rating and is suitable for elevated ambient temperatures. Perfect for warehouses, gymnasiums and production assembly areas.
Specs
- Replacement for 400-600W metal halide fixture
- Power factor >0.9; THD <10%
- Average rated life: 50,000 (L70)
- IES Type 5 distribution
- CRI >80
- 130 Lumens per watt (LPW)
- Ambient operating temp: -40°F to 140°F

Features
- Suitable for high temperature applications up to 140°F
- Built-in cooling fins provide maximum heat dissipation
- Hook mount standard for ease of installation
- 0-10V Dimmable*
- Polycarbonate heat and impact resistant lens
- Motion sensor version MS available

*Compatible with standard forward phase line voltage dimmers. For best results use a dimmer that is designed for LED. For a complete list of recommended dimmers visit www.topaz-usa.com.
LED Surface Mount Disk Lights

An easy-to-install downlight solution for new construction as well as retrofit applications, Topaz’s surface mount LEDs are offered in standard 4” or 6” sizes and are designed to be mounted to most standard 4” J-boxes. Perfect for residential or commercial applications including bathrooms, closets, storage areas, hallways and living areas, they offer exceptional color rendering of 90 CRI and are available in 3000K and 4000K color temperatures. Dimmable down to 5% with standard incandescent or LED style leading edge dimmers, their optical design provides a wide beam angle with low glare. With a life rating of at least 50K hours, these fixtures greatly minimize the cost of ownership through reduced maintenance and lower utility costs. California Title 24 and ENERGY STAR Listed, these fixtures are wet location rated.
Specs
- Input voltage: 120VAC 60Hz
- Power factor >.99, THD <20%
- CRI: >90

Features
- Surface mount to most 4” J-boxes
- Driver-on-board technology eliminates an external power supply
- Dimmable down to 5%
- Suitable for damp or wet locations for shower or outdoor enclosed locations
- Up to 75% energy-savings over traditional incandescent sources
- Support California Title 24, part 6 requirements for high efficacy LED light sources

*Dimming - This unit is designed to be compatible with most leading edge, incandescent or LED dimmers. Up to date information with additional dimmers can be found at www.topaz-usa.com
LED Color Selectable Slim Downlighting

New from Topaz, Color Selectable LED slim recessed downlights feature an adjustable CCT switch for various installation options. Low profile design facilitates mounting in confined ceilings or narrow soffits. Color temperature select feature makes this a perfect choice for numerous applications & can reduce the number of SKU’s needed to carry. Rated for IC and damp locations, this easy-to-install fixture does not require a separate housing, it can be mounted directly into the ceiling with optional frame-in kit. Dimmable with leading edge incandescent or LED style dimmers. These Energy Star certified fixtures are available in 4” and 6” models, with CCT range of 2700K-3000K-4000K.
### Specs

LED Slim Recessed Downlighting

Designed for new or remodel applications, Topaz LED Slim Recessed Downlights feature a low profile design that facilitates mounting in confined ceiling areas or soffits. This easy to install slim fixture does not require a separate housing, and the recess fixture mounts directly into the ceiling. Simply wire and mount the J-box, connect the low voltage cable to the fixture then secure the fixture into the ceiling with the attached spring clips. Rated for IC and damp locations. Dimmable with leading edge incandescent style or LED dimmers. Available in 4” and 6” square or round models.
Specs
- Volts: 120VAC 60Hz
- Average rated life: 50,000 (L70)
- CRI: 90
- Power factor >0.9; THD <20%
- Beam angle: 120°
- Amps: 4" 9W: 0.09, 6" 12W: 0.12, 6" 14W: 0.13
- Ambient operating temp: -4°F to 104°F

Features
- Low profile design
- Housing: Steel housing box with Class II dimmable LED driver
- Connection: 12" low voltage connection cable between box and fixture
- Easy to install, saving labor and extra housing costs
- Spring clips hold fixture firmly to ceiling
- Rated for IC and damp locations
- Back Lit LED technology
- Remote J-box with low voltage cable provides flexibility in mounting
- Dimmable with leading edge incandescent style or LED dimmers*

Applications
- Low profile design facilitates mounting in confined ceiling areas or soffits
- New construction or remodel applications
- Does not require a separate housing, recess mount directly into ceiling. Simply wire and mount J-box, connect low voltage cable to fixture then secure into ceiling with spring clips.

LED Retrofit Units

Topaz provides a high performance and easy-to-install retrofit solution for standard recessed housings. Models are available in 4" and 6" sizes for downlighting or directional applications. The units are dimmable down to 5% for optimal control and offer 90+ CRI for exceptional color rendering in 2700K-5000K. Constructed with advanced thermal management and optics, each unit is equipped with a power connector system for ease of installation. All units are ENERGY STAR and UL Listed for wet and/or damp locations. Topaz LED retrofit units are designed for reduced cost of ownership through lower energy and maintenance costs and have a life rating up to 50K hours.

LED New Construction/Remodel Housings

Topaz’s new construction and remodel LED recessed housings are the perfect choice for LED trim kits. Offered in both 4” and 5/6” housing sizes, these line voltage housings are standard IC rated and Airtight to meet local building code requirements. The housings feature a quick connect for fast install of a wide array of Topaz LED trim kits.

Remodel

Features

• Steel housing construction
• IC Rated and Airtight to meet local building codes
• Quick connect for ease of connection to LED trim kits

LED Outdoor Lighting

The Topaz line of outdoor LED fixtures feature attractive and contemporary designs with the latest advances in LED technology. Constructed of sturdy die-cast aluminum and finished with UV resistant powder coating, our fixtures deliver even more energy-savings compared to traditional lighting and reduce maintenance costs through long life.

With the Topaz speed-to-market, speed-to-innovation approach, our customers always benefit from the latest proven LED technologies at an unbeatable value.
Topaz’s LED Security Lights combine performance and design while providing years of maintenance free illumination in residential and commercial settings. These fixtures are also available with a motion sensor for easy time control, dusk-to-dawn ambient light detection and motion detection up to 40’ with a 180° field of view. Applications include general area lighting, walkways, doorways/entrances, and driveways. Topaz Security Lights are ENERGY STAR qualified and carry a five year warranty.
Specifications:
- Input Voltage: 120VAC, 60Hz
- Input Current Amps: 0.2
- Average Rated Life: 50,000
- CCT: 4000K
- Power Factor: >0.9
- THD: <20%
- Ambient Temp: -10°F to 104°F

Features:
- Replacement for 120W Halogen fixture (2-lamp 60W)
- Available with or without motion sensor
- Fully articulated sensor mount with gasket sealed base
- The motion sensor version has a fully articulated sensor mount with gasket sealed base and offers:
  - Dusk-to-Dawn ambient light detection
  - Motion detection up to 40' with 180° field of view
  - Time controls
- Shatter resistant, sealed in gasket lens
- Durable black or white finish to withstand the elements to prevent flaking and peeling; won’t chip or fade
- Cooling fins for improved heat dissipation for extended life
- Die cast aluminum construction- thicker gauge than box store alternative!
- Single screw mount to wall, eave or box; hardware included

Applications:
- Residential and commercial, egress or security lighting

- Ambient operating temp: -40°F to 113°F

Features
- One piece die-cast aluminum housing with UV resistant polycarbonate optical lens, outstanding corrosion protection.
- Bronze powder coat finish (other colors available by special order)
- Suitable for mounting heights up to 25' (150W) and 35' (300W) in area lighting applications
- 150W replacement for 400W HID fixtures**
- 300W replacement for 1,000W HID fixtures**
- 4 or 5 Inch round or square pole mounting
- Options to mount motion sensor
- Includes both shorting cap and twist lock photocell

Applications
- Parking lots, area lighting, illumination of areas of ingress, security lighting

Accessory
- WD-OS 72700 Motion Sensor

*Replacement wattage dependent on fixture, reflectance and lumen maintenance of lamp
**Direct replacement for HID, dependent of fixture design, mounting height and illumination requirements.
Slipfitter Mount
Comes standard with 2-3/8" slipfitter mount

F-ARL/150W/50/S3
F-ARL/300W/50/S3

Pole Mount with Motion Sensor
Comes standard with pole mount
Motion sensor version with standby dimming level

F-ARL/150/50K/P3/M
ARL/300/50K/P3/M

150W  13.45"  18.6"
300W  13.45"  24.73"
Specs
- Voltage: 120-277VAC or 480V, 50/60Hz
- Power Factor: >0.9
- THD: <20%
- IES Distribution: Type III
- BUG Rating: B3U2G3
- Color Temp: 5000K CCT
- CRI: >70
- LED: 154 PC Seoul SMD 3030 (150W), 308 PC Seoul SMD 3030 (300W)
- Ambient operating temp: -40°F to 115°F

Features
- One piece die-cast aluminum housing with UV resistant polycarbonate optical lens
- Stainless steel hardware
- Flexible mount system: allows for easy swap of mounts for SKU reduction
- Suitable for mounting heights ranging from 18'-36' in area lighting applications
- 6' power cable included
- Silicone rubber gasket provides a weatherproof seal
- Twist-lock photocell and shorting cap included
- 10kV surge protection
- 0-10V Dimming

Applications
- Parking lots, area lighting, illumination of areas of ingress, security lighting

Traditional Wall Packs

For general area lighting, Topaz’s LED Wall Packs are a highly efficient solution. These lamps provide a long-lasting, cost-efficient option to high pressure sodium, metal halide and other traditional lights. Designed with a prismatic lens, these fixtures make the most of their highly efficient LEDs and create a widely distributed light to illuminate large areas. Constructed with a rugged, powder coated die-cast aluminum housing and featuring an operating expectancy of greater than 50,000 hours, these lights can last for years in all types of environments including warehouses, factories, restaurants, shopping areas and parks. The housing is designed to be mounted on junction boxes or direct wall mounts with feed-through conduit access for easy installation. An optional photocell can be installed for additional energy control.

Architectural Slim Wall Packs

Topaz’s LED adjustable slim wall packs deliver full cutoff or semi cutoff light distribution. The innovative pivoting head design aims the light precisely and adjusts up to 20 degrees for forward throw illumination. Suitable for up to 25 foot mounting for applications including pathways, perimeter lighting and building entryways. Available in 30W, 40W (small), and 70W, 90W (large) with CCT of 5000K and DLC qualified.

*Replacement wattage dependent on fixture, reflectance and lumen maintenance of lamp.

Specs
- Universal voltage 120-277VAC
- Power factor >0.9; THD <15%
- Average rated life: >50,000 (L70)
- CRI: 70
- Ambient operating temp: -40° to 104°F

Features
- Adjustable head provides full cutoff and semi cutoff IES type III light distribution
- Light heads adjust up to 20 degrees for greater forward light distribution
- Built in 120-277VAC photocell
- Easy mounting system

Applications
- Security, pathway and perimeter lighting, building entryways and walkways

RoHS COMPLIANT WET LOCATION IP65 RATED
Topaz’s Full Cutoff wall packs are constructed with precision optics that direct light in the target area while minimizing glare and backlight. These durable, energy-saving fixtures are perfect for lighting outdoor walkways, landscapes, parking areas and perimeters. Efficacy for the series reaches up to 125 lm/W, translating to 75 percent energy savings over HID luminaires. The fixtures include 10kV inherent surge protection and are compatible with photocells for additional energy savings. Constructed of a corrosion resistant housing, impact resistant polycarbonate lens, and universal input voltage. Available in 40W and 60W outputs, our Full Cutoff LED Wall Packs are designed with sleek, heat-sinking fins that provide an exceptional 50,000 hour lifetime.
Specs
- Voltage: 120-277VAC 50/60Hz
- Average rated life: 50,000
- CRI: >70
- Ambient temp: -40° to 131°F
- Power factor: >0.9
- THD: ≤20%
- Surge Protection: 10kV
- IES Distribution: Type IV
- LED chip type: Seoul SMD 3030

Features
- Aluminum Body with bronze powder coat finish
- Heat & impact resistant polycarbonate lens
- Architectural low profile design
- Dark sky compliant
- Mercury free
- No UV or IR output
- 1-10V Dimming option

Applications
- Security, pathway and perimeter lighting, building entryways and walkways

Small Wall Packs

Topaz’s LED Small Wall Packs are a compact light source with a diffused prismatic lens providing uniform and efficient lighting. As an energy-saving and long life alternative to traditional light sources, they deliver incredible efficiency without sacrificing performance. Rated for greater than 50,000 hours of operation and constructed of rugged die-cast aluminum with a high impact polycarbonate lens, these wall packs are guaranteed to stand up to the harshest of elements for many years. Ideal for outdoor illumination of stairwells, pathways and entryways in commercial and residential settings.
Specs
- 120-277VAC, 50/60 Hz
- Power factor >0.9; THD <20%
- Average rated life: >50,000 (L70)
- CRI: >80
- Ambient operating temp: -10° to 110°F

Features
- Die-cast housing with UV resistant powder coat finish
- High impact polycarbonate diffuser
- Photocell included

Applications
- Outdoor commercial and residential
- Entryways
- Stairwells
- Hallways

Square Canopy Luminaire

Our ruggedly designed LED canopy and parking garage lights promote safety and security in commercial and industrial environments. Suitable for indoor or outdoor applications, they are the perfect fit for parking garages, underground passageways, corridors and fuel stations. Additionally, the low profile design offers an architectural appeal and is ideal for applications with limited space. With an operating life greater than 50,000 hours and a 65% energy-savings compared to HID, these fixtures are sure to outlast the competition.
Specs
- Universal voltage 120-277V, 50/60Hz
- Power factor >0.9; THD <20%
- Average rated life: >50,000 (L70)
- CRI: 70
- Ambient temperature: -40°F to 104°

Features
- (2) 1/2” NPT threaded hubs
- (1) 3/4” NPT threaded hub for pendant mount
- Die cast aluminum construction with powder coat finish
- Hinged and removeable plate for quick installation
- Impact and UV resistant polycarbonate lens
- Photocell or motion sensor compatible

Applications
- Parking garages
- Stairwells
- Exterior canopy settings
- Carports

Round Canopy Luminaire

Our round canopies are the perfect alternative to the typical square. With a sleek appearance, frosted lens and powerful lumen output it’s the best match to replace HID luminaires. DLC qualified and suitable for garages, perimeter lighting and entryways. Available in 40W and 60W and can be mounted up to 15 feet. The round canopy lights feature an easy mount system for connection to a junction box.
Specs
- Universal voltage 120-277V, 50/60Hz

Dusk-to-Dawn/Barn Light

Utilizing a single source LED, Topaz’s Dusk-to-Dawn fixture with its NEMA approved photocell provides prismatic designed light output for any environment. A long-lasting alternative to traditional lights with a life rating of greater than 50,000 hours, this fixture features chip on board (COB) LED technology and advanced thermal management and offers energy-savings of up to 80% compared to typical fixtures. Fabricated with a heavy duty, corrosion resistant cast aluminum housing and designed to be installed on a wall or pole, this fixture is ideal for parking lots, warehouses, farm applications and factory loading docks.
**Specs**
- Universal voltage 120-277VAC, 50/60Hz
- Power factor >0.9; THD <20%
- Average rated life: >50K hours, up to 3X longer than traditional HID sources
- CRI >70
- Minimum starting temp: -40°F

**Features**
- Die-cast housing with UV resistant powder coat finish
- Highly efficient LED light source up to 110 lumens/watt
- Full cutoff optical design
- 120-227V photocell included
- Mounting pole and hardware included

**Applications**
- Outdoor commercial and residential
- Barn lighting
- Area lighting
- Loading docks
- Parking lots

LIMITED WARRANTY: Topaz Lighting Corp. warrants to the original purchaser that Topaz fixtures/lamps shall be free from defects of material and workmanship for a period as stated above from the date of purchase, based on 12 hours of use per day. Topaz Lighting Corp. will, at its option, repair or replace without charge a defective fixture/lamp that has not been misused, carelessly handled or improperly installed. Repair or replacement, as stated above, shall constitute the purchaser’s exclusive warranty, which does not extend to transportation, installation, labor or any other incidental or consequential charges. www.topaz-usa.com.

For light emitting diode (“LED”) Products, the LED arrays in the Products will be considered defective in material or workmanship only if a total of 15% or more of the individual LEDs in the Products fail to illuminate.

This warranty is not applicable to any fixture/lamp, which is not installed and operated in accordance with the current edition of the National Electric Code (NEC), the Standards for Safety of Underwriters Laboratory, Inc. (UL), the Standards for the American National Standards Institute (ANSI) and with Topaz instructions and guidelines for the fixture/lamp. This warranty is not applicable to any fixture/lamp subjected to abnormal stresses and operating conditions.

**Outdoor Fixture Exclusions:
Topaz Lighting Corp. shall have no responsibility under this Warranty for any failure of the Products that results from external causes including without limitation: acts of nature; physical damage; exposure to adverse or hazardous chemicals or other substances; use of reactive cleaning agents and/or harsh chemicals to clean the Products; environmental conditions; vandalism; fire; power failure, improper power supply, power surges or dips, and/or excessive switching; fatigue failure or similar phenomena resulting from induced vibrations, harmonic oscillation or resonance associated with movement of air currents around the Product; animal or insect activity; fault or negligence of the purchaser of the Products. During the Warranty Period some staining, chalking or fading may occur. This is normal aging of the finish and is not a manufacturing defect; therefore it is not covered by this Warranty. Neither polycarbonate nor acrylic material used in the Products is warranted against yellowing, as yellowing may naturally occur over time due to normal aging.

Topaz reserves the right to examine all fixture/lamps prior to the determination of warranty status. All fixtures/lamps must be retained for warranty claims. The warranty period starts on the date of installation. If the date of installation cannot be determined or is unknown, the warranty period will start with the date of the original purchase from Topaz.

Warranty Exclusion Clause for Products Exported:
This warranty shall be void for products that are exported outside the U.S. and its territories. The distributor, private labeler or OEM assumes all responsibility imposed by statute, regulation or law on product sold into those markets.

NO IMPLIED STATUTORY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE SHALL APPLY BEYOND THE AFOREMENTIONED WARRANTY PERIOD.

The foregoing warranty is exclusive of all other statutory, written or oral warranties, and no other warranties of any kind, statutory or otherwise, are given or herein expressed. The warranty sets forth Topaz’s responsibilities regarding the fixture/lamp and claimant’s exclusive remedy.

LIMITATION OF LIABILITY: Topaz will not under any circumstances, whether as a result of breach of contract, breach of warranty, tort, strict liability or otherwise, be liable for consequential, incidental, special or exemplary damages including, but not limited to, loss of profits or revenues, loss of use of fixture/lamp or any other goods or associated equipment or damage to any associated equipment, cost of capital, cost of substitute products, facilities of service, down time cost, or claims of claimant’s customers. Topaz’s liability on any claim of any kind for any loss or damages arising out of, resulting from or concerning any aspect of this agreement from the products or services furnished hereunder shall not exceed the price of the specific fixture/lamp or fixtures/lamps which gives rise to the claim. Some states do not allow the exclusion or limitation of damages or the length of time for an implied warranty. Therefore, the limitations or exclusions of consequential or incidental damages and implied warranties may not apply to certain claimants. This warranty gives the claimant specific legal rights. The claimant may also have other rights, which vary from state to state.

WARNING: Some Topaz products included in this catalog are subject to the warning requirements of California Health and Safety Code Section 25249.5, et seq., commonly known as California Proposition 65. Please refer to your product packaging for more information.
